

# Bridging the Gap II (BtG-II)

## Learning Spaces (LS) - Concept note

Webinar-based Training Cycle 2018-2019

### 1 – INTRODUCTION

**Bridging the Gap II (BtG-II)** is an initiative funded by the European Union coordinated by the International and Ibero-American Foundation for Administration and Public Policies (FIIAPP) in partnership with the Spanish Agency for Development Cooperation (AECID), the Austrian Development Agency (ADA), the Italian Agency for Development Cooperation (IADC), the European Disability Forum (EDF) and the International Disability and Development Consortium (IDDC). It aims to contribute to the **socio-economic inclusion, equality and non-discrimination of persons with disabilities** through more inclusive and accountable institutions and policies.

Bridging the Gap is a targeted thematic response to the requirement to **make development cooperation accessible to and inclusive of persons with disabilities**, which is an obligation for the European Union (EU) and Member States as parties to the Convention on the Rights of Persons with Disabilities (CRPD) and which can have a significant impact in improving the social inclusion and promoting the rights of persons with disabilities.

Bridging the Gap has developed a comprehensive three-pillar **Knowledge Management Strategy**. A webinar-based training cycle is proposed in the framework of the Third Pillar of the Strategy (Learning Spaces to **LEARN and TRAIN**). As illustrated below, the cycle will gradually explore the different cross-cutting issues taken into consideration by the project.

Overall, the webinar cycle aims to foster a culture of disability mainstreaming in development and to define a homogeneous approach to the project cross-cutting topics.

### 2 – WEBINAR #1

The **first webinar** focuses on:

1. Introduction to the Convention on the Rights of Persons with Disabilities: principles, content and structure.

### 3 – NEXT WEBINARS

Following the first session, the Learning Spaces will develop and estimated eleven webinars tentatively focused on:

2. The SDGs and their references to disability
3. Disability-inclusive development
4. Inclusive and accessible project cycle management
5. Inclusive and accessible communication
6. Legislating for Disability Rights
7. Inclusive education
8. Universal access to employment
9. Access to Health
10. Advocacy programmes at local level
11. Women and disability
12. Livelihoods

The webinars will be prepared and conducted by international experts selected by Bridging the Gap II. Experts have been/will be instructed to provide interactive, replicable and shareable. Already existing tools, documents and networks will be used<sup>1</sup>.

As much as possible, each webinar will be conducted in English, French and Spanish in separate sessions. Other languages may be added based on the availability of experts and/or material.

### 4 – TARGET AUDIENCES

The webinar cycle is addressed to the **three target groups** of the project, namely:

1. Development practitioners (for instance: agencies, EU delegations)
2. National institutions of the partner countries
3. National organisations of persons with disabilities

The audience may vary according to the topic object of the webinar.

### 5 – WEBINAR DURATION

Each webinar lasts for one hour and a half.

---

<sup>1</sup> Ex.: Bridging the Gap I, IDA's BRIDGE initiative, COCEMFE's training on inclusive development, etc.

This project is funded by the European Union

## 6 – FIRST SESSION: LEARNING OBJECTIVES AND OVERVIEW
